The Audited Consolidated Financial Statements in accordance with the Companies Act, 2013 ('the Act') and Indian Accounting Standard 110 on Consolidated Financial Statements, is provided in this Annual Report.

2. State of Company's Affairs and Future Outlook

After the turbulence in the business environment caused by the three transitions of

- the installation of the GST regime,
- the demonetisation of November 2016 and,
- the nation-wide standardisation of BS-IV emission.

The Company's business environment and business processes have stabilised. The Company is now regularly producing BS-IV vehicles which are well accepted in the market. The adaption of GST by the country has enabled the Company to smoothen its inward and outward logistics, in so far as virtually all its depots could be eliminated. Company to Company transactions - between the factory and our dealers, have now become the norm. There is thus greater ease of business.

The plants of the Company are functioning well. Continuous improvements in manufacturing processes, and efforts to refine the work culture, are yielding the desired benefits.

The proportion of Company's sales value derived from 'vehicle manufacturing and selling' on the one hand, and 'components - engines, axles manufacturing' for Mercedes Benz and BMW on the other hand, continues to be nearly the same. Both activities are positive and the outlook is optimistic.

The Company has continued its efforts to achieve BS-VI capable engines in time, for all its vehicles. Currently the understanding, based on the Government of India's pronouncements is that vehicles manufactured after 1st of April 2020 will necessarily be compliant of BS-VI, whereas vehicles manufactured prior to 1st of April 2020, even if they are BS-IV compliant, will be sellable post 1st April 2020. This is a very tight programme, and any pre-emption caused by any regulatory phenomena, will create considerable problems and result in disruption in production and sale.

MANAGEMENT DISCUSSION AND ANALYSIS

I. INDUSTRY STRUCTURE AND DEVELOPMENTS

The Indian Automobile Industry has reached a high level of sophistication and maturity. The total volume of vehicles produced in India, excluding two-wheelers, is Approx. 60 lakh Nos. Of this, light commercial vehicles industry has grown to Approx. 5.5 lakh Nos, including both passenger and goods vehicles. The last mile connectivity requirements based on high rate of urbanisation and modernisation of the economy has built significant demand for various small cargo vehicles. The Company was not present in the cargo segment for several years. Looking to the developments and future growth, the company will be offering a full platter of products in the 'small commercial vehicles' and 'light commercial vehicles' segment from this year on. It is planned that all the vehicles will also be offered with BS-VI capability - from the beginning of BS-VI emission regime. Also alternate fuels and electrification solutions are being pursued.

The unfortunate regulation, where vehicles between 9 and 13 seats capacity are perversely taxed, with the total incidence of 43 per cent GST (28 per cent GST + 15 per cent SGST) is not only harming your Company's business interests, but actually has a very adverse socio-economic impact as School Buses, Ambulances and Tour and Travel Vehicles, which fall in this category, are illogically penalised. This is detrimental to social causes and harmful to the economy. There is no logical basis for this differentiation as vehicles below 9 seats capacity and also those above 13 seats capacity, are taxed at substantially lower rates. Your Company has repeatedly brought this anomaly to the attention of the authorities.

New market segments, such as inner-city municipal vehicles, inner-city minibuses, multi-stretcher ambulances, etc. are slowly emerging to cope with the changing requirements of the transportation scenario. Your Company is actively engaged in developing vehicles for these applications.

Electrification of various vehicles is a policy focus for the Government, and the manufacturers of vehicles and components are seen to be heavily engaged in the development of appropriate solutions. For your Company, the market for inner-city passenger transportation vehicles, with electric propulsion appears to be a correct segment to aim at. Accordingly efforts are being made. However, it is expected that the size of this market will only increase gradually, but steadily, over the next decade, as cost competitiveness of electric vehicles is likely to improve due to improvement in battery technology.

With the introduction of BS-VI emission standards, slated for April 2020, the offerings of BS-VI capable inner-city transportation vehicles will significantly affect the cost of vehicles, as the technology impact on cost of small vehicles will proportionately be higher, than its impact on the cost of larger vehicles. The Company is cognizant of this aspect.

The industry structure, as also the market for light commercial vehicles, can benefit hugely if the Government is able to streamline

the disparate, mutually contradictory and random regulations - as instituted differently by different states, in relation to the rules for the Motor Vehicles Act, 1988. Particularly permits and licensing requirement for short haul passenger vehicles, used for private and for public transport, need to be brought in line, with streamlining of the permit requirements for similar size goods vehicles. This simplification will go a long way in providing to the public affordable, dignified, sensible modes of transport, rather than being dependent on the Government-run outdated bus transport system.

II. PERFORMANCE OF THE COMPANY

The number of vehicles sold during the Financial Year under report was 31,022 compared to 32,929 vehicles sold in the Financial Year 2016-17. However, the major threat remains the adverse public opinion promoted by vested interests - on the efficacy of diesel fuel. The diesel technology of today is extraordinarily clean and free of hazards. However, public opinion has unfortunately and systematically evolved to shun diesel.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Force Motors Limited (“the Company”) as of 31st March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2018 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Ind As financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the holding company and its subsidiary company which is incorporated in India, has, in all material respects, internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2018 based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

The following methods and assumptions were used to estimate the fair values:

The fair values of Trade Payables, Trade Receivables, Cash and Cash equivalents and other Bank Balances, are reasonable approximation of fair value due to the short-term maturities of these instruments.

Allowance for credit loss on Trade Receivables, is taken into account, on the basis of credit worthiness of the customer individual.

Borrowings of previous year represents Public Deposits and Commercial Paper obtained at market rates of interest available for debt on similar terms, credit risk and remaining maturities. As of reporting date, the fair value of borrowings is measured at amortized cost, which is reasonable approximation of fair value.
